👤 PROFILE

Software Developer with experience building enterprise-level applications using C#, .NET Core, ASP.NET, SQL Server, REST APIs, and Entity Framework. Currently working at E-Creatorz as a .NET Developer and deployed as a Resident Engineer at IoBM, contributing to the development and maintenance of ERP systems, campus management systems, faculty/student portals, and banking workflow applications.

Skilled in backend development, database optimization, stored procedures, API integration, debugging, and production support. Experienced in developing web and mobile applications using .NET, React Native, and MAUI, with practical exposure to secure transaction workflows, scalable application architecture, and cross-functional collaboration.

Strong problem-solving skills with a focus on developing maintainable, efficient, and scalable software solutions.

📁 EXPERIENCE

E-Creatorz

May 2023 – Present

Software Developer

- Working as a Software Developer at E-Creatorz and deployed as a Resident Engineer at IoBM, supporting enterprise-level academic and administrative systems.
- Developing and maintaining scalable web applications using C#, .NET, ASP.NET, WebForms, MVC, REST APIs, and Entity Framework.
- Designing and optimizing SQL Server databases, stored procedures, and queries to improve application performance and reporting efficiency.
- Contributing to the development and enhancement of Campus Management System (CMS) modules including student registration, academic management, reporting, surveys, fee management, and trusted-device authentication.
- Developing and maintaining ERP modules covering Payroll, Human Resource Management, Supply Chain Management, and Hospital Management systems.
- Enhancing faculty and student portal features including attendance tracking, assessment results, academic monitoring, student ledger, roadmap, and course management functionalities.
- Developing cross-platform mobile applications using .NET MAUI and React Native.
- Implementing secure banking transaction workflows in React Native using Maker, Checker, Signatory, and Releasor authorization processes.
- Providing production support, debugging critical issues, deployment assistance, and performance optimization for live enterprise applications.
- Collaborating with academic, finance, HR, and administrative teams to gather requirements, implement features, and improve system reliability.

🎓 EDUCATION

Master of Science in Data Science (MSDS)

NED University of Engineering and Technology

Jan 2026 – Present

Relevant Areas of Study:

- Statistics for Data Science
- Data Science Tools & Techniques
- Machine Learning

Bachelor of Science in Computer Science (BSCS)

PAF KIET Main Campus Korangi Creek

Sep 2020 – Jun 2024

CGPA: 3.06 / 4.00

Relevant Coursework:

- Data Structures & Algorithms
- Database Management Systems (DBMS)
- Machine Learning
- Computer Organization & Architecture
- Entity Framework & MVC
- Data Science

🧠 SKILLS

Programming Languages

C#, C++, JavaScript, Python, VB.Net

Backend Technologies

.NET Core, ASP.NET, MVC, ASP.NET, WebForms, ASP.NET, Web API, Entity Framework, .NET MAUI

Frontend

HTML, CSS, JavaScript, React Native

Database & Query Optimization

SQL Server, Stored Procedures, SQL Query Optimization

Tools & Platforms

Git, GitHub, Postman, Swagger, Visual Studio, GitHub Copilot, Cursor, Claude AI

Core Concepts

RESTful APIs, Authentication, Troubleshooting & Debugging, Production & Application Support, Data Structures & Algorithms

PROJECTS

Net 2 Bank

Nov 2024 – Present

React Native | Enterprise Banking Application (E-Creatorz)

Developing secure banking workflow features for transaction processing applications using React Native, including Maker, Checker, Signatory, and Releaser authorization processes for IBFT, IFT, and cheque-based transactions.

Edu-Smartz Campus Management System (CMS)

May 2023 – Present

ASP.NET, SQL Server, WebForms (E-Creatorz)

Contributed to the development and maintenance of enterprise campus management functionalities including student registration, fee management, reporting, surveys, trusted device authentication, and academic operations.

Ebiz-Smartz Enterprise Resource Planning (ERP)

May 2023 – Present

ASP.NET, SQL Server (E-Creatorz)

Worked on ERP functionalities covering Payroll, Human Resource Management (HRM), Supply Chain Management (SCM), Purchase Requisition, and Hospital Management systems for enterprise administrative operations.

Edu-Smartz (Student Portal)

May 2023 – Present

.NET, MAUI, ASP.NET (E-Creatorz)

Implemented web and mobile portal features including attendance tracking, assessment results, student ledger, roadmap, course management, and LMS functionalities using .NET and MAUI.

Edu-Smartz (Faculty Portal)

May 2023 – Present

ASP.NET, SQL Server (E-Creatorz)

Worked on faculty portal functionalities including attendance management, surveys, academic tracking, and LMS-related features for enterprise academic systems.

Space Optimizer

Oct 2023 – Aug 2024

ASP.NET, Python (FYP)

Developed a space optimization system that arranged user-defined objects to maximize container space utilization. Integrated image recognition functionality to identify user-drawn objects and improve placement accuracy.

Concurrent File Access Control System

Jun 2023 – Oct 2023

C++ (P&DC)

Implemented a multithreading-based file access control system using mutex synchronization mechanisms to manage concurrent file operations and prevent race conditions during file access.

CODE FUSION

Sep 2022 – Jan 2023

Python (Cryptography and Discrete Mathematics)

Implemented file encryption and decryption functionality using custom encryption techniques for secure handling of multiple file formats.

Water Distribution Management System

Feb 2022 – Jun 2022

ASP.NET, MVC, SQL Server (DBMS)

Built a web-based management system supporting user authentication, product management, and order processing functionalities using ASP.NET  MVC and SQL Server.

CERTIFICATIONS & ACHIEVEMENTS

Certifications

- C# (Basic) Certification — HackerRank

Technical Achievements

- 5★ Python — HackerRank
- 4★ Problem Solving — HackerRank
- 3★ SQL — HackerRank
- Winner — AWS Hackathon, Master Mind Category (2020)
- 1st Position — Flair'22 Network Designing Competition (2022)
- Runner-Up — Pakistan Day Programming Competition (2022)
- Runner-Up — E-Code Chef Speed Programming Competition (2021)

Leadership & Competitions

- Head of Delegate Affairs — YMNA V Leadership Conference (2025)
- Director of Guest & Protocol — YMNA IV Leadership Conference (2023)
- Head of Programming & Deputy Marketing Manager — Kiet Technological Fair (2022)
- Special Mention — YMNA III, "Development in IT and Human Rights" (2023)
